

Attention Working Grown Ups!

Sunshine requires every working grown up to have a record of vaccination for the MMR and Tdap shots in addition to a TB test. If you are unable to provide proof of vaccination, you will need to ask your doctor to run a titers test for each of these shots. If the results show positive immunity, then you can just provide copies of your results for the file. If not, you will need to have the vaccinations and provide a copy.

Please also provide a copy of receipt for the Flu shot or a letter for your file that states you decline to receive the Flu shot. Thank you so much!

If you have any questions, please call Miss Portia at 714-290-5747.
